SUMMARY

Web developer with 2+ years of hands-on experience in building responsive and user-friendly web applications. Skilled in modern frontend technologies including, React, and Next.js. Proficient in backend development using Node.js and Express.js, with strong integration skills across both NoSQL (MongoDB) and relational databases (MySQL, PostgreSQL), using PrismaORM for efficient data modeling and querying. Successfully delivered 2+ full-stack projects, demonstrating strong problem-solving skills, clean code practices, and a focus on user experience and scalability.

Currently pursuing a software development program at a college in Vietnam to deepen technical expertise and advance career opportunities.
